12. What were the instructor's strengths? Weaknesses?

Difficult problems prepared me well for exams.

Sometimes the problems (actually often), the problems were much more difficult than those covered in the lecture requiring significant time spent to figure them out.

13. What were the teaching assistant's strengths? Weaknesses?

can't really comment because he was only seen once a week long enough for him to collect/return homework.

14. Was the textbook useful?

Very!

15. What, if anything, would you change about this course and why?

One big Pset per week rather than 3 smaller ones.

16. Would you recommend this course to others? Why?

This is, by many accounts the most difficult section of 15200. You will be pushed very hard but you will also learn more than the students in other sections. Up to you to decide if that's what you want.
